From the Album:

\* Switch

I was born the son of a tycoon  
Successor to a vast fortune  
Being spoilt without concern  
For the future tricks I'd turn  
I found the wrong direction  
Due to daddies overprotection  
refrein:

With people in a state of trance  
There's no use for common sense  
What you do is use the coin  
Justify what you're destroyin'  
Following the family code...  
I misbehave - lose control  
Cause daddies gonna save my soul  
What to think of a man of means

That wheels and deals behind the scenes  
I radiate potential danger  
Accepted as a well known stranger  
At all the jet-set parties  
I'm tampering with the ladies!  
refrein:

With people in a state of trance  
There's no use for common sense  
What you do is use the coin  
Justify what you're destroyin'  
Following the family code...  
I misbehave - lose control  
Cause daddies gonna save my soul
