From the Albums:

- \* Eight miles high
- \* Golden Earring Live
- \* The naked truth

Eight miles high  
And when you touch down  
You'll find that it's stranger than known  
Signs in the street  
That say where you're going  
Are somewhere, just being there own  
Nowhere is, there warmth to be found  
Among those, afraid of losing their ground  
Rain, grey town, known for it's sound  
In places, small faces unbound  
'Round the squares, huddled in storms  
Some laughing, some just shapeless forms  
Sidewalks scenes, and black limousines  
Some living, some standing alone
