From the Album:

* N.E.W.S.

Can you tell me what it's all about now?
There's a rumor spreading all over town yeah
You'll never guess it or understand, baby
Start living with a new idea
It's over - close the book
Over - off the hook
It's over - like a war in peace
It's over....
Oh! I'm running from the guillotine
Carve my name in the hanging tree
Never thought that I was such a fool
But when it's over, baby
What can you do?
It's over - you better believe it
It's over - nothing can change it
It's over - can't you see
It's over....
I was only seventeen and I loved you so
I'll never loved a girl the way I loved you girl

I was only seventeen and I loved you so
I'll never loved a girl the way I loved you girl
Oh I'm heading for a dead-man's curve
Graveyard's on the next left turn
Never thought I was such a fool
But when it's over, baby
What can you do
It's over - you'd better believe it
It's over - nothing can change it
It's over - can't you see
It's over....
I was only seventeen and I loved you so
I'll never loved a girl the way I loved you girl
I was only seventeen and I loved you so
I'll never loved a girl the way I loved you girl
Over.... yeah
It's all over now
