She doesn't love me  
She's running away  
What a crime, have to be  
Lonely every day

refrain:

What is it about me that  
You do got another man  
He will never love the way I did  
I should again  
If she changed her mind, I will forgive, oh yes, I will  
Think I gotta go now, feeling sad  
Will they go tell everybody  
I'll never forget  
To their eyes looking at me, so  
I fell in love

Cause that she told me  
She told me no  
Will pay anything  
Only had to go

refrain

Cause she doesn't love me  
She's running away  
What a crime, have to be  
Lonely every day

Lonely every day  
I'm lonely every day
