From the Albums:

- \* Prisoner of the night
- \* 2nd Live

Shortcomings I can't explain  
Of body and brain  
I feel I'm caught in inside a bubble  
I suggest we're in trouble  
Let's be optimistic - pessimistic makes me sick  
C'mon optimistic - get up - make it big  
I can't fight cause I'm a prisoner of the night

I can't fight cause I'm a prisoner of the  
Mean wheel prisoner of the night  
Big deal for a prisoner of the night  
Runnin' real prisoner of the night  
Escape - when daylight strikes - yeah  
And you won't come down no more
