Specialize in danger Â– IÂ’m from Niagara Falls  
And now I sit here waitinÂ’, like an idiot for your call  
Words cannot explain, that rattlesnake in my bones  
Guess itÂ’s time to face the truth, I stand here licked by  
love  
And in the name of love

I wanna go go go, like a burning stuntman

I fry exposed to fire of course  
Choke up while IÂ’m breathinÂ’ smoke  
Come on quench the fire inside my soul  
I wanna go go go

A slumberin' volcano, about to explode

PuttinÂ’ on a smile and then youÂ’re takinÂ’ of your  
clothes  
Words cannot explain, my heartÂ’s red pepper blue  
And my blood goes boilinÂ’ every time I look at you  
IÂ’m in danger, how about you

I wanna go go go, like a burning stuntman

You fry exposed to fire of course  
Like a flame whisperinÂ’ to a moth  
Come on quench the fire inside my heart  
I wanna go go go

Like a burning stuntman, like a burning stuntman.....
