### "The Heat"

Visit "[The Heat](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Lights out  
turn up the heat  
i got a sick hot theme  
if you know what i mean  
if you keep it in check  
i swear i'll play nice  
i got you on the floor  
arms open wide  
you have no choice cause  
now their tied  
the beast is out of it cage  
and now its your time

so breathe breathe  
iv got you on your knees  
shes a tease  
i hold the keys  
exposed and shaken up  
i suppose we're making love

good good your getting it down  
so step it up  
slip off that red night gown  
if you follow presuder  
looks like you need to  
get on to get me off,  
get on to get me off.

so breathe breathe  
iv got you on your knees  
shes a tease  
i hold the keys  
exposed and shaken up  
i suppose we're making love  
above all else girl please yourself  
place your standards on the shelf  
tonight is right to do me wrong  
ill close my eyes and play along

if i hold you down  
i want you to scream

do what you feel girl  
follow the theme  
you can change everything  
i know its hard to believe  
your the star of the show girl,  
but dont forget to breathe,

Lights out  
turn up the heat  
i got a sick hot theme  
if you know what i mean  
if you keep it in check  
i swear i'll play nice  
i'll play nicee

so breathe breathe  
iv got you on your knees  
shes a tease  
i hold the keys  
exposed and shaken up  
i suppose we're making love  
above all else girl please yourself  
place your standards on the shelf  
tonight is right to do me wrong  
ill close my eyes and play along
