I lost my love for you my love  
A long long time ago  
And there's nothing you can do  
My love is a seed that doesn't grow

It disappeared so soon you see  
Just like the setting sun  
I left with just a moon and me  
And it's so lonely on the run

So I turn within the tidal wave  
To greet it face to face  
But the burning broken bride of it was there in his place  
Was there in his place

I went to the burial ground to see if it was there  
But nothing was saved and nothing was found  
Except the pack of hopeless prays  
The pack of hopeless prays

And I've lost my love for you my love  
A long long time ago  
Thers nothing you can do  
My love is a seed that doesn't grow  
A seed that doesn't grow  
A seed that doesn't grow
