Hey, what's bubbling down under there?  
Why is it screaming what's unfair?  
Please excuse it for getting out  
Let the shellfish swell inside  
How should I know? Watch it squirm  
It's asking me words that I learned

Stay inside for me or space  
Trip me in a sprinkling gray  
Stay and take my fate

Thought I knew you, stuck out my hand  
Didn't wish I could understand  
It's a twisted feeling, its there and bold  
It's time to burn out, hope I score  
Wait for me there, dash and run  
To watch this with the lantern

Stay inside for me or space  
Trip me in a sprinkling gray  
Stay and take my fate

Take my fate, take my fate  
Take my fate, take my fate
