When I was down she was full of advice  
'Cause she'd been there once or twice  
With a ring on the side of her nose  
Wearing other people's clothes

She had her highs and she had her lows  
In between she'd show  
When she smiled everything else died  
V let off a good vibe

As if in a dream  
The one and only V  
As if in a dream  
The one and only V

Buying shots and breaking hearts  
She used to wait on us down at the bar  
Never took as much as she gave  
She's still giving to this day

Staying up half the night  
Mood swing yet we cried  
On a cold December day  
V up and went away

As if in a dream  
The one and only V  
As if in a dream  
The one and only V

Staying up half the night  
Mood swing yet we cried  
On a cold December day  
V up and went away

As if in a dream  
The one and only V  
As if in a dream  
The one and only V
