### "Last Time"

Living life and freedom  
wondering if my love  
could be as one  
and if that you could  
possibly love me  
thinking life  
and living life  
are two very different things  
the first one being harder  
than the last

Tonight's the last time  
that I ever show you me

Thinking all these days are gone  
and dreaming of my time with you  
just makes me wish  
that I was with you now

Driving the ninety  
I'm thinking of you  
if I could turn back time  
I'd look you in the eye  
then I might see your lies
