Here, in my head,
It's what you said
That breaks me down,
All alone,
Wanna die.

Armed with a kiss,
A little shine's
Left on your face.
Unresolved,
One more time.

I'm your all night Operator,
I'll connect you to the other side.

Summer nights,
And you die,
Summer nights,
Dialling in your sleep.

Here, in my head,
It's what you said
That breaks me down.
All alone,
Wanna die.

I'm your all night Operator,
I'll connect you to the other side.

Summer nights,
And you die,
Summer nights,
Dialling in your sleep.

Summer nights,
You come to me,
Summer nights,
Coming with the sun.
