Drifting out of time
Something on your mind
And I wanna be the one that you call
When you get down
No matter where you are in the world
I'll be around

Fly me away on an aeroplane
High in the sky wanna see you again
Wanna know this time
Gonna tell you what I'm feeling
Gonna know this time
Gonna get it back that feeling

Miles and miles of sun
Endless roads twist on
Don't wanna live a life
In a world that's all the same
The crazy little things
That you do are magical

Fly me away on an aeroplane
High in the sky wanna see you again
Wanna know this time
Gonna tell you what I'm feeling
Gonna know this time
Gonna get it back that feeling

This crazy life, this crazy world
We're living in is magical

Fly me away on an aeroplane
High in the sky wanna see you again
Wanna know this time
Gonna tell you what I'm feeling
Gonna know this time
Gonna get it back that feeling
