Here, in my head
It's what you said
That breaks me down

All alone
Wanna die

Armed with a kiss
A little shine's
Left on your face
Unresolved
One more time

I'm your all night operator
I'll connect you to the other side

Summer nights
And you die
Summer nights
Dialing in your sleep

Here, in my head
It's what you said
That breaks me down

All alone
Wanna die

I'm your all night operator
I'll connect you to the other side

Summer nights
And you die
Summer nights
Dialing in your sleep

Summer nights
You come to me
Summer nights
Coming with the sun
