## "Fly Me Away"

Visit "[Fly Me Away](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Drifting out of time  
Something on your mind  
And I wanna be the one that you call  
When you get down  
No matter where you are in the world  
I'll be around

Fly me away on an aeroplane  
High in the sky wanna see you again  
Wanna know this time  
Gonna tell you what I'm feeling  
Gonna know this time  
Gonna get it back that feeling

Miles and miles of sun  
Endless roads twist on  
Don't wanna live a life  
In a world that's all the same  
The crazy little things

That you do are magical

Fly me away on an aeroplane  
High in the sky wanna see you again  
Wanna know this time  
Gonna tell you what I'm feeling  
Gonna know this time  
Gonna get it back that feeling

This crazy life, this crazy world  
We're living in is magical

Fly me away on an aeroplane  
High in the sky wanna see you again  
Wanna know this time  
Gonna tell you what I'm feeling  
Gonna know this time  
Gonna get it back that feeling
