### "3D Superwoofer"

*[Egg]*

You feel it pumping and it's in your face  
You feel it pumping and it's in your face  
You feel it pumping and it's in your face  
I've got a 3-D Super Woofer, now turn up the bass

*[Rhys]*

All I ever wanted at the age of nine  
Was a cassette player that was mine  
To play my rap tapes to all my mates  
So for Christmas and birthdays I'd wait and wait

Then one day, you know what I was given  
Off my cousin who was run over and killed up in  
Llanishen  
A Super Woofer of the 3-D kind  
Double cassette and it was all my mine

Sometimes I think they were the best days  
Sometimes I think they were the best days  
Sometimes I think they were the best days  
When I'd spend my time pressing rewind and plays

*[Chorus]*

3-D Super Woofer, double cassette  
Those are the days I will never forget  
3-D Super Woofer, auto reverse  
That was the chorus, now back to the verse

*[Egg]*

Clap your hands everybody if you've got what it takes  
Cos here's the boombox and these are the tapes  
Maxell, Sony, TDK,  
I keep them in a box and never throw them away

Stop, play, pause, rewind  
I turn it up loud when I'm out of my mind  
So fucking big that it can't be stolen  
Like a medical experiment your head gets swollen

Tape to tape, switch high-speed dubbing  
Tape to tape, switch high-speed dubbing  
Tape to tape, switch high-speed dubbing  
I might stay home cos I don't go clubbing

So long CD, fuck MP3  
Everywhere I go I take a tape with me  
Rock the boombox in the day, rock the boombox in the  
night  
If the tape goes slack then I wind it up tight

Make a mix for my tape with my two turntables  
Then make a nice cover, write the name on the labels  
Like a junkie but I don't smoke rocks  
I can't get enough of my 3-D boombox

*[Chorus]*

3-D Super Woofer, double cassette  
Those are the days I will never forget  
3-D Super Woofer, auto reverse  
That was the chorus, now back to the verse

*[Rhys]*

Before 5:1 or cinema surround sound  
I got it from Dixons for a hundred pounds  
3-D Super Woofer, double cassette  
Those are the days I will never forget

Back in the day, put on 2 Live Crew  
Turn up the volume and the EQ  
Using pause to mix my tapes  
With my sister and her mates throwing some shapes

*[Mysty]*

Top deck shandy, Panda pops and Tizer  
Top deck shandy, Panda pops and Tizer  
Top deck shandy, Panda pops and Tizer  
Top deck shandy, Panda pops and Tizer  
Top deck shandy, Panda pops and Tizer  
Pump up the bass with your graphic equalizer

Street corners, lay down the lino  
Bodyspins, windmills, not while you're high though  
Sixteen batteries, sub woofers booming  
Pose like the Rock Steady Crew I'm assuming

Bad boy in a tracksuit with a boombox  
My name's Mystikal and my body rocks

*[Chorus]*

3-D Super Woofer, double cassette

Those are the days I will never forget  
3-D Super Woofer, auto reverse  
That was the chorus, now back to the verse

*[Adam]*

Rolling on my BMX, I look so refined  
Rolling on my BMX, I look so refined  
Rolling on my BMX, I look so refined  
But it chews up my tape when I press rewind

Ice T on the radio on the beat  
But the batteries are costing me forty quid a week  
Bassbins with four watts of speaker  
With a chrome tweeter and a volume meter

Pump up the bass  
Pump up the bass  
Pump up the bass  
Pump up the bass  
Pump up the bass  
Pump up the bass  
Pump up the bass with your graphic equalizer

Rock the boombox in the day, rock the boombox in the  
night  
Rock the boombox in the day, rock the boombox in the  
night  
Rock the boombox in the day, rock the boombox in the  
night  
Pump up the bass with your graphic equalizer
