Been chillin er with fcukin 2 Hats this week fcukin  
knows it  
I likes to chill take it easy watchin and listenin to Peter  
Alliss he's fcukin great  
GLC  
Relaxation is important my community welfare officer  
suggested I relax more because of the violent  
outbursts. Im a lot better now you know so much  
serious  
Serious man I loves to fcukin just sit there have a spliff  
and relax  
Most of all I likes watchin the fcukin Antiques Roadshow  
just in case they values any of them old cock mags I  
bought down fcukin town centre  
I works hard all day selling the draw  
Drinking the beer and being chased by the law  
I gets in from town and I kicks back large  
With a Radox bubble bath and a body massage  
I wears a ball bearing all day in my shoe  
So I got a bad boy limp when I hangs with my crew  
You knows this much and this much is true  
I watches Weakest Link on BBC2  
I chills with the birds from the council estates  
I goes down there joyriding with my mates  
I picks one up with greasy hair scraped back  
And starts to get it on to Roberta Flack  
Take it easy in my council pad  
Smokin the draw I don't get mad  
I likes to watch darts on BBC 2  
Takin it easy slurpin a brew  
When I gets home from work I gotta relax  
I get paid cash in hand and I don't pay no tax  
I slips on the pavement without stepping on cracks  
I combs my hair with some gel or some wax  
Im into leisure clothing got sandals and slacks  
And I got a big spliff that's like a Tampax  
When Im chillin at home I drinks Pepsi max  
But if you fcuk with me I'll cut you up with an Axe  
Going on a day trip up to Big Pit  
Some of my mates says the Gift shop is shit  
But I'd really like to know how they survive  
No draw fags and rizla or GLC vibe

I loves to chill up Pontypool  
With the sixth form girls from the local School  
I gotta scam going on where they pay me the money  
They dress up and then they show me the cunny  
Gotta skinhead and I likes the minge  
[ ] and a tidy fringe  
I wears tracksuits that would make you cringe  
When I goes out on a mad drinks binge  
Couple of punters on a Tuesday night  
Sniffing some poppers I think I might  
Bit of speed and Im high as a kite  
Followed by spliffs and Im out like a light  
I puts on the news it's got Osama Bin Laden  
So I flicks the channel to see a show set in a garden  
After seven minutes I puts on ITV  
And sees three minutes of romantic comedy  
Shot in a studio before an audience that's live  
I think fcukin hell there's sex on Channel 5  
A good erotic thriller that makes me undo my flies  
In under 20 seconds my cock starts to rise  
Just been er working hard cleaning out the furniture of  
a dead persons house  
Fcukin youve gotta relax man youve gotta take it way  
easy man  
Goes home I sits in my lazy boy reading special  
instructional pamphlets  
On fcukin relaxing I has a spliff  
If your circle stays unbroken then you're a lucky man  
Cos it never, never, never, has for me  
In the palace of the virgin lies the chalice of the soul  
And it's likely that you might find the answer there innit  
Knows it for real fcukin 200 + 2  
Its the GLC crew  
Fcukin can't stop the fcukin beatings  
Fcukin Mr Love Eggs  
Fire of death  
Ray Balaclava  
Fcukin Power of Ten  
One Step Down  
Fcukin Billy Webb  
The fcukin Walsh  
Knows you're fcukin safe
