### "Space Police"

nobody knows where he comes from, nobody knows  
who he is.  
nobody knows what his name is, nobody knows where  
he lives.  
handcuffs and a truncheon, with a badge and a gun  
he's a robot policeman, and he's bustin' you just for fun

#### *[Chorus]*

Tony he's from the space police, programmed to  
destroy to keep the peace  
made of metal he'll never stop, Tony is a robot cop

no one feels safe, no one knows who to trust  
he's a robot policeman and he's making a bust  
on the streets you can feel the tension  
he's not from this earth but another dimension  
this city is gripped by fear, robot justice is swift and it's  
very severe  
when the robot cop talks it's all buzzes and bleeps  
his prime directive is to clean the streets,

#### *[Chorus]*

Tony he's from the space police, programmed to  
destroy to keep the peace  
made of metal he'll never stop, Tony is a robot cop

(The little bridge bit is "from outer space, not to be  
confused with Robocop or Terminator")

the futures now feel it coming, robot police it is coming

give me justice give me truth, after dark he'll destroy  
the youth  
come from the top a government invention, the hidden  
agenda they didnt mention.  
upholds the law and he solves the crimes, but he holds  
narrow views in these liberal times  
Tony he's from the space police, programmed to  
destroy to keep the peace  
made of metal he'll never stop, Tony is a robot cop.

Tony he's from the space police, programmed to  
destroy to keep the peace  
made of metal he'll never stop, Tony is a robot cop

robot police man he can never be killed, he does the  
paper work too cause he's highly skilled.  
relentless persuing for whatever i'm doing, no  
questions asked just a guaranteed shoeing.  
enter the street see it coming ,pullin out the spliffs we  
start runnin'  
theres's no escapin' the robot police, he'll bang you up  
with no chance of release.

*[Chorus]*

Tony he's from the space police, programmed to  
destroy to keep the peace  
made of metal he'll never stop, Tony is a robot cop

Tony he's from the space police, programmed to  
destroy to keep the peace  
made of metal he'll never stop, Tony is a robot cop
