Oh no, why can't you get along?  
Ok I know it's not my place  
I've got to say something  
I've got to say something  
I've got speak

She'll never leave  
And you can never throw her out  
Impossible to conceive  
You'd rather be with than without

That's just the fear talking  
That just the fear talking  
That's just the fear

Don't let it take you  
Like it nearly took me, fear  
Don't let it fool you  
Like it nearly fooled me, fear

Remember the good old days  
But love is like a dragonfly  
So beautiful, it will die  
And disappear before your eyes  
I'm no philosopher  
I am no poet  
I'm just trying to help you out

Don't let it fool you  
Like it nearly fooled me, fear  
Don't let it take you  
Like it nearly took me

And so you sit and wait  
For another man to take your place  
And when, when he comes  
Would you welcome him with open arms?  
You'll feel a hundred years younger  
You'll feel a hundred years younger  
You'll fee no fear

Don't let it take you

Like it nearly took me, fear  
Don't let it fool you  
Like it nearly fooled me, fear  
Don't kill you  
Like it nearly killed me, fear
