Since I was a child  
I was chased like a demon out of town  
Born the second child  
Of a leg, leg, legless hound

And I am gonna follow you around  
And I am gonna follow you around  
Yeah, I

I'm eagerly adopted  
By the darkest atmosphere  
Playin' in the playground  
With [Incomprehensible] others, yeah

And I am gonna follow you around  
And I am gonna follow you around  
Yeah, I

And I am gonna follow you around  
And I am gonna follow you around  
And I am gonna follow you around  
And I am gonna follow you around  
Yeah, I?
