Who's going to drive your car?
Who's going to drive your car?
'cos when I'm long, long gone
I'm going to be gone for good.

I don't want to scare you

Something's hanging over my head

Who's going to see the stars?
Who's going to see the stars?
'cos when I'm long, long gone
I'm going to be gone for good.

I don't want to scare you

Something's hanging over my head

Whooh!

I know,
I see,
I know what you're talking about when you're talking to
me.
I know
Ain't it clear,
I know what you're talking about when you're
whispering in my ear.

Who's going to go the bar?
Who's going to go the bar?
'cos now I'm long, long gone I'm going to be gone for
good.
I don't want to scare you

Something's hanging over my head
Something's hanging over my head

Whooh!
