"Spinning Around"

Visit "[Spinning Around](#)" on MotoLyrics.com

I saw you coming my way
Rushing the tops of the trees
You make the world spin around
Stir up the waves on the sea
You whisper in my ear
I feel your breath on my face
You give me shivers sometimes
but it's all part of your grace

You spin me around
I fold on your breeze
I see all you see
And all the secrets you keep
You know we can't go wrong
When you glow so strong
Will you stay by my side
I can't stand being alone

I saw you coming my way
I watched you falling apart
I felt the love in the air
But I had to stand in the dark
I watched you dress and undress
I knew you couldn't decide
With a body like that
How could I stay in the dark

you spin me around
I fold on your breeze
I see all you see
And all the secrets you keep
We can't go wrong
When love's so strong
Will you stay by my side
I can't stand being alone

If I could only grow wings
Than I could see all you see
I will fold on your breeze
And all the secrets you keep
You know we can't go wrong

When you glow so strong
Will you stay by my side
I can't stand being alone

You spin me around
I fold on your breeze
I see all you see
And all the secrets you keep

You spin me around
You spin me around
You spin me around
You spin me around

You spin me around
I fold on your breeze
I see all you see
And all the secrets you keep
