Mary

Healing herself  
Healing the world and me as well  
We rarely see how far we shine

She's digging in  
Seeking her answers there within  
Leaving a younger girl behind

Mary is on her way to womanhood  
Mary is on her way to home  
Mary is like a play  
Can't read ahead  
More to be said  
Mary is like a living koan

Mary Christmas  
Mary New Year  
Mary, let your heart be known  
Caring for strays  
Seems like that's always been her way  
She sees what other people don't

She took me in  
Knew when I needed most a friend  
Room to defend, and room to grow

Mary is on her way to womanhood  
Mary is on her way to home  
Mary is like a play  
Can't read ahead  
More to be said  
Mary is like a living koan

Mary Christmas  
Mary New Year  
Mary, let your heart be known
