-Successor to the throne from Austria was killed  
by a (nazi)organisation called "Black Hand"  
Austria explained to Serbs the war  
1914 begins the first world war.

-After the war hate everywhere  
hate between/among two nations  
tomorrow still Brutality and massacre  
war until the future

Refr. Stench from decayed corpses  
in the air is unbearable  
A 20 head family  
was killed by a psychopath

A head from a woman is splitting by an axe

A headless corpse lies on the way  
Mass graves are lying everywhere  
Children over it and they are weeping

-Weapons and ammunition will be sized  
Heavy tanks (are) pushing everywhere  
Burning buildings along the streets  
Burn out property from serbs

Refr.:

Burning children in any house---idioty  
Pain and agony because of the war---idioty  
Shredded humans along the streets---idioty  
Fucking war is fucking pain---of the soul
