In a day, when I don't recall your name
Would you tell what it means to be forgotten
Anyway, I never want to hear you say
There's no way I could ever understand.

'Cause you're half awake, half inside your head
like always
You didn't hear a single word I said
like always

Time's up--you're out of luck
You got scared and no one cared
Gave up--Heart off your sleeve
Now I'm the last one who believes

It's a day--Now I can't recall your face
It's a feeling I've been trying to remember

Anyway, I never want to see you say
There's no way I could ever understand

'Cause you're half awake, half inside your head
like always
You didn't hear a single word I said
like always
You made a plan but let it sit there dead
like always
Your vision traded in for days in bed
like always

Time's up--you're out of luck (yeah)
You got scared when no one cared
Gave Up--Heart off your sleeve
Now I'm the last one who believes
