So tender
Remember November sweet pretender
Catapulted, insulted
Roses returned to sender
Created, now faded
Memory of love concentrated
I'm jaded, aggravated
I hope it's not too late and

What the hell is wrong with me
I handed in a guilty plea
Along with an apology
She must know psychology
I know I've been through this before
I don't know why I'm back for more
She's a tricky tractor beam
Always has always been

She'll take you
Down tonight
Put up a fight now, she'll knock your lights out, taking
you
Down all right
Waving the white flag warning she'll be gone by
morning
(repeat)

So slender, surrender

Diamond vendor I'm big spender
Empty pockets, spoon in a socket
She walked away and left me here with all the bills to
pay

What the hell is wrong with me
My friend just saw me on TV
The sucker of the year award
Doesn't someone have a cure
She'll leave you there with your tattoo
A souvenir you'll never lose
She's a tricky tractor beam
Always has always been

She'll take you
Down tonight
Put up a fight now, she'll knock your lights out, taking
you
Down all right
Waving the white flag warning she'll be gone by
morning
(repeat)

Bad girl, what you gonna do now

(Chorus)
