Yes you bet you'd be dead but you came back home  
You had no place to go, a failure all your own  
Start again, find a friend need a hand to hold  
A lack of self control, another all time low.  
Upset you regret you don't measure up  
You gave it everything, it wasn't good enough  
This is once what we were fighting for....

I know you'll never believe me  
It feels like i'm always on the outside  
Always on the outside looking in  
It's not that easy  
It feels like i'm dying on the inside  
Always on the outside looking in

Broken plans, folded hands, it all came undone  
The favors traded in and now you're down to one  
You're a mess in distress and you're falling fast  
Who's gonna save you now and help erase the past

Time keeps ticking away, another waste of a day  
Stuck in the middle with no solution  
Just another let down, never gonna break out  
I can't take this.....

I know you'll never believe me  
It feels like i'm always on the outside  
Always on the outside looking in  
It's not that easy  
It feels like i'm dying on the inside  
Always on the outside looking in

Just another let down, never gonna break out

I know you'll never believe me  
It feels like i'm always on the outside  
Always on the outside looking in  
It's not that easy  
It feels like i'm dying on the inside  
Always on the outside looking in
