Verse 1:

Wake up sun pulling eyes open
Surprise I'm feeling fine
Eight AM was never friendly
But now I think I've changed my mind
Hangovers never hurt us
We're crippled by regrets
Apologizing for the lies we never meant

We can't forget where we've been
It's not starting over -- It's starting again

Chorus:

This is the best day of our lives
Hollywood happy ending -- it's our time (so sing it)
This is the best day of our lives
You can keep your tomorrow
I'll take today anytime

Verse 2:

Shake up the situation
Don't let life pass you by
Castaway graduation
Never say you never tried
We are the awkward silence
tied up insecurity
Constantly reminded of what we would never be

We can't forget where we've been
It's not starting over -- It's starting again

(Chorus)
