It's a neverending world out there  
And you and I made it this far  
but believe me there's things about me you don't know

And who do I turn to?  
Where do I run?  
Who do I seek, cuz baby it's a cry for help.

I never knew just how one little word can hurt  
I never thought I could feel like that  
But you and me It's not gonna last  
Forgive and forget, yeah forgive

And who do I turn to?  
Where do I run?  
Who do I seek, cuz baby it's a cry for help

yeah baby it's a cry for help.
