Are you listenin' now?  
Are you feelin' that way?  
Aren't you terrified?  
Of wakin' up too tired to try again?

Are you happy now  
That you've shut yourself down  
Are you paralyzed  
By all the nonsense that's gone down

I know you're gonna see these things someday

Sorry-eyed we spent so much of your time  
Now I'm tryin' to put your riddle to a rhyme  
Now it's up up up I'm headin' for this evenin'  
And it's up up up I'm headed for the clouds

Comin' down ain't the worst part  
It only takes a second  
To make a change that's gonna last

I hope you're gonna see these things happen someday  
So don't stop lookin' for that light along the way

Sorry that we've spent so much of your time  
Now I'm tryin' to put your riddle to a rhyme  
Now it's up up up and headin' for this evenin'  
And it's up up up and I'm headed for the clouds
