Do you listen to yourself?
Never live for someone else
Do you like the way you feel?
Nothin' hurts when no one's real

She wants to shake this scene
Yes, she wants to shake with me
She's not lookin' for the holes in all the lies

I wanna bulletproof your soul
Would you like to lose control?
I won't let you fall until you tell me so

What are we?
(What you wanna be)
Everything
(That you wanna be)
All I need
(Right in front of me)
I've known before

Would you come my way
Or did you burn out to the air?
Would you come my way?
Should have listened
When you called my name

Yes, she wants to tear you down
And she leaves without a sound
It's like fallin' backwards into no one's arms

You're a bullet through my soul
And I'll never let you know
I won't let you fall until you let it go

What are we?
(What you wanna be)
Everything
(That you wanna be)
All I need
(Right in front of me)
I've known before

Would you come my way
Or did you burn out to the air?
Would you come my way?
Should have listened
When you called my name

Would you come my way
Or did you burn out to the air?
Would you come my way?
Should have listened
When you called my name

Should have listened
When you called my name
Should have listened
When you called my name
Should have listened
When you called my name
