Darlin' stop what you're doing right now put your best
dress on
Comb your long black hair and sing me your favorite
song
Aren't you tired of working hard for other people's
dreams to come true
So come out come out, tonight belongs to me and you
Yeah me and you
It's the last hot night, the last hot night in America
It's the last hot night, the last hot night in world
It's the last hot night, the last hot night in America
And I'm looking for you
Yeah, I'm looking for you

Yeah the streets are full of prophets and thieves and
people like us
They ain't looking for redemption just a thrill if it's easy
to touch
And if it's coming to an end you know I'm gonna feel
alive one last time
So come on, come and hold your soul next to mine, one
last time
It's last hot night, the last hot night in America
It's the last hot night, the last hot night in the world
It's the last hot night, the last hot night in America
And I'm looking for you
Yeah, I'm looking for you

What happens now we can't control
Can you hear me now, can you hear me now
Just take my hand and don't let go
Can you hear me now, can you hear me now
Come on come on don't let go
Come on come on and don't let go

And the silence broke when I saw your face again
And the crash of life came rushing through my veins
Yeahhh
It's the last hot night, the last hot night in America
It's the last hot night, the last hot night in the world
It's the last hot night, the last hot night in America

And I'm looking for you
Yeah, I'm looking for you
And I'm looking for you
Yeah, I'm looking for you

It's the last hot night, in America
