Yeah I'm fadin'
And I call out
No one hears me
Never been, never felt, never thought I'd say a word
Weighed down
Safe now

You're naked inside your fear
You can't take back all those years
The shots in the dark from empty guns
Are never heard by anyone
Never heard by anyone
Yeah I'm hiding
In the fallout
Now I'm wasted
They don't need me, don't want me, don't hear a word I
say
Weighed down
Safe now

You're naked inside your fear
You can't take back all those years
The shots in the dark from empty guns
Are never heard by anyone
Never heard by anyone
Inside your head
No one's there
And I don't think I'll ever be
And I don't care
You're naked inside your fear
You can't take back all those years
The shots in the dark from empty guns
Are never heard by anyone
Never heard by anyone
By anyone
By anyone
