Are you listenin' now ?
Are you feelin' that way
Aren't you terrified?
Of wakin' up too tired to try again?

Are you happy now?
That you've shut yourself down
Are you paralyzed?
By all the nonsense that's gone down

I know you're gonna see
These things some day

Sorry-eyed we spent so much of your time
Now I'm tryin' to put your riddle to a rhyme
And it's up, up, up, headin' for this evenin'
And it's up up up, headed for the clouds

Comin' down, it ain't the worst part
It only takes a second
To make a change that's gonna last

I know you're gonna see
These things some day
So don't stop lookin' for
That light along the way

Sorry-eyed we spent so much of your time
Now I'm tryin' to put your riddle to a rhyme
And it's up, up, up, I'm headin' for this evenin'
And it's up, up, up, headed for the clouds
