It's been a long, dark, lonely hall
Between the cracks I can read the scrawl
It's written down in a crooked rhyme
That sold me out before my time

You know it, since then I've been back down to the
edge
I can't believe the things you never said
I can't explain the words I never found
My whole world should come crashing down

You know but but you can't sell me out
With everything you think about

I think back, I draw a blank
You know but there ain't no need to dig the past
You know I, I don't wanna live my life in a day
I ain't got no need for this plastic cage

'Cause you don't think about anything I think about

You know what I mean
You know what I mean
You know what I mean
You know what I mean

Now you know for sure you're alive
Because you, you watched her leave before your eyes
You know I, I'm afraid to say your name
But I, I ain't afraid to share this blame

Because 'cause you can't sell me out
Everything you think about

You know what I mean
You know what I mean
You know what I mean
You know what I mean

It's been a long, dark, lonely hall
Between the cracks I can read the scrawl
Find a place that feels like home

You know I, I get some clue to where I'm going

You know but you don't think about
Anything I think about

You know what I mean
You know what I mean
You know what I mean
You know what I mean

You know what I mean, oh no
You know what I mean, oh
You know what I mean, oh no
You know what I mean
