I will wait until the end
When the pendulum will swing back to the
Darker side of our hearts bleeding
I will save this empty space
Next to me like it's a grave
Where I lay a place for us to sleep eternally together

I have been
Searching for
Traces of
What we were

A ghost of you
Is all that I have left
It's all that i have left of you to hold
I wake in the end to find there's no one there but me
And nothing left of what we were at all

So here I am
Pacing around this house again
With pictures of us living on these walls
I see my breath in the cold of the air that I breathe
And I'm wondering
I'm wondering if it's you that I feel
If it's you that I feel here
Haunting me forever

I have been
Searching for

Traces of
What we were

A ghost of you
Is all that I have left
It's all that i have left of you to hold
I wake in the end to find there's no one there but me
And nothing left of what we were at all

And I'm not looking for
Anything but us
Anything but what we were

And I'm not asking for
Painted memories
I only want to know you're here

A ghost of you
Is all that I have left
It's all that i have left of you to hold
I wake in the end to find there's no one there but me
And nothing left of what we were at all
A ghost of you
Is all that I have left
It's all that i have left of you to hold

I wake in the end to find there's no one there but me
And nothing left of what we were at all
