

Good Charlotte "I'm Down"

Visit "[I'm Down](#)" on MotoLyrics.com

ooohhhh
ooohhhh

I can't hear you anymore
I won't let you in, I'll ignore
The things you say, they really bring me down
I've found my happy place is on the ground

Misunderstood out in the cold
I am so young but I feel old
The things you say, they really bring me down
I've found my happy place is on the ground

I am down
I am down
I am down
I am down

No sound is found when you come around
No sound is found when you come around
No sound is found when you come around
No sound is found when you come around

I am down
I am down
I am down
I am down

No sound is found when you come around
No sound is found when you come around
No sound is found when you come around
No sound is found when you come around

I am down
I am down
I am down
I am down
