(featuring X-Ecutioners)

There's something in the air now
That radiates a heat wave
'Cause everything that we touch
Is on fire these days

We used to go to shows on every Saturday night
There was sweating, there was **, had the time of our
life
But nothing ever mattered if the music was tight, yeah
And everybody wondered if the kids were alright
But we're alright

The only thing we wanted
Was to get this fire started
Keep this record turning
So we can keep it burning

Now we got people waiting
They're all anticipating
They wonder what we'll do now
On the records that we're making

Cause we still to go to shows on every Saturday night
There's fighting, there's **, had the time of our life
But nothing ever mattered if the music was tight, yeah
And everybody wondered if the kids were alright
We're alright

The only thing we wanted
Was to get this fire started
Keep this record turning

So we can keep it burning

All the things they said
About the way we live
We were young and hopeless

And everything we did
We've got no regrets

We are the young and hopeless

The only thing we wanted
Was to get this fire started
Keep this record turning
So we can keep it burning

The only thing we wanted
Was to get this fire started
Keep this record turning
So we can keep it burning

Hey DJ, DJ
Keep this record turning
Hey DJ, DJ
Keep this record
Keep this record
Keep this record turning
