Cut:  
(Del talking)

Hook:  
This is real hip hop not no phony phranchise  
Winnin' by a landslide and you know you can't hide  
This is D-E-L not no phony phranchise  
Winnin' by a landslide and you know you can't hide  
This is Hieroglyphics not no phony phranchise  
Winnin' by a landslide and you know you can't hide

Cut:  
Rag Del, impetuous, tempestuous,  
My power's activated, have to make it, funky

Del deep, scuba diver wet suit  
Who survived to get loose  
Brewin' in the test tubes  
To the rescue, extradition process  
To get you all stressed  
Step onto my office  
That's what you call fresh  
It's more like some soft breasts  
If i stopped cuss, i probably would cough less  
Test it, just to see if ya'll rested  
I'm blessin' the beat just like if i was the best man  
Yo, you miss it in ya' public school distict  
Get a book and do the physics  
Yo' i got a cool image  
Like Hendrix, my kindred,  
Y'all fuck up to my index  
Bench press rappers doing sets with my Syntax  
Ain't nothin' new motherfucker man i been black  
Impact, remember Malcom X wore a pimp hat  
You paper chasin' when you make it then you spit that  
That your whole life shoulda never even been rap  
Wannabe gangster fool around and get your friend  
capped  
Talkin' hella shit my brother trying to buy a ten sack  
Man, just call me amphibious  
Submerging so deep yanking curtains on these idiots

Walking 'round oblivious more than annoying  
Everywhere I turn a black life is destroyed and  
Times is getting tough gotta sign for unemployment  
Walkin' round the town all 'noid and bent  
Out of posture from sixteen blunts, a pint of vodka  
Intoxicated some of y'all call it faded  
With my headphones slammin' playin Iron Maiden  
Sleepin' in the lobby of the Days Inn

Cut:

Never outdated  
When my power's activated, have to make it, funky

I'm barn storming, alluring, curing  
Your ailments with lyrical talismans  
Here it is, for the scrutiny of every record reviewer  
Your tool to reduce your little rhymes are non-existent  
Meticulous methods I use to modify  
The style you all should try  
Posh poetics, cost effective  
Neck and neck with sun beams  
Transcends the fabric of time  
Yah, it's one thing  
Named Hiero, habitual funk, fiends and freakerz  
Techniques from the major leaguers leaves you  
meager  
Style malfunctional i'm punchin' in early  
Right on schedule gold medalist rebellious (who?)  
Del is, got you cornered like a cougar  
Comin' up with new words like you must be a lummoX  
Wanna infiltrate my crew when you know you'll go nuts  
Lactose intolerant your bowels'll blow up  
Catostrophic so deep can't locate with metal detectors  
Listen more then once you'll need several inspections  
I'm sicker than a beef recall  
Reiterate the fact with flows that free fall  
Reintroduction the classic material  
That last with imperial  
Props and Pop Will Eat Itself  
Hotter than coals tread and your feet'll melt  
Like plastic i castrate contenders  
With a crew that got more power than the Westcoast  
Avengers  
Sit and let your ears swim in the splendor

Hook:

It's just that real hip hop not no phony phranchise  
Winnin' by a landslide and you know you can't hide  
This is D-E-L not no phony phranchise

Winnin' by a landslide and you know you can't hide  
This is Hieroglyphics not no phony phranchise  
Winnin' by a landslide and you know you can't hide

Verse 3:

Mouth watering musical madness  
More bomb than Bombay in glad bags, get  
mesmerized  
Spellbound Del found profound  
Hip hop essentials mandatory for the mental  
I used to be dazed and confused  
Now I'm amazed and amused  
At life and its clever ruse  
I have compassion while other brothers askin' for  
trouble  
Brain damage got 'em befuddle  
Yo, while I'm on stage pumpin' fear  
Your over there in the corner drinking non-alcoholic  
beer  
Dominating, commentating moving on to great things  
Embracing the lunacy, lacing the community  
With one, two, and three for all clueless emcees  
They need guidance, tutorials from the Overlord of skill  
Magnifying music with my magnificent mind  
That blinds with such shine it's embarrassing  
Hop in the caravan with Hiero and hit the road to take  
care of fans  
You know what, I'm claimin' dozens  
It's Sudden Impact Crib Death  
It's big threat major counter-act like tazers  
Trailblazers, we clown the name sayers  
I crave flavorings with custom tailorings  
I can comunicate with aliens, it's a daily routine  
It's never failing you fiends to get cream  
By the continuity the rhymes move in unity perfectly  
with the tunes  
I hope it hits you soon
