She walks down to the store at eight,
The devil walks with her and he thinks she's great,
When she looks at me, I don't know what I saw,
I think he's tryin' to make me his son in law

CHORUS

When she,
Walks by, walks by, walks by, she walks on by
Egos fly when she walks by,
She caught my eye on October 9th,
22 days before Halloween
How did I know she'd be my evil queen

CHORUS

My mother warned me against girls like you,
She said stay away from them son, you know they're
not true,
All they're gonna do is put you under a spell, she told
me,
When you're fallin' down, you're going straight to hell
