You sit and face your final meal, you'll be the first to
blink

A reminder that you're still alive

Frightened of this thing you feel but still you start to
think

What price for you to survive?

Join us! We need all the help we can get

Together! We'll hedge our karmic bets

Join us! Self-righteousness is fun

Together! We'll convert everyone

It's time we all saw the truth

I can't believe we've come so far, there's so much more
to go

And it looks like things are up to us

It doesn't matter where you are, it only matters what
you know

It's time we said enough's enough

Speaking for a species that can't speak

I'm talking about the slaughter of the innocent and the
weak

I call it a crime and now it's time to make a change

You know we're ready to rearrange

I'm on one mission, to kill an old tradition

Make a meat-eater like a black and white television

It's time to take the dying out of what we eat

So get out of your seat

Because it's time to beat the meat
