"No Sacrifice Too Great"

Visit "[No Sacrifice Too Great](#)" on MotoLyrics.com

Looking for food as I dig through the trash,
The capitalist system will not get my cash,
Sometimes it is hard, but I'll be ok,
Because it's amazing what people will just throw away,
No issue is too small,
No sacrifice too great,
We've got to save it all,
Before it is too late,
Riding my bike home from critical mass,
There's two feet of snow but I'm still saving gas,
My feet are really cold, my shoes are homemade,
But no little kid had to work as a slave,
It's time to take control of how we live,

We've got to raise our voice and stand for something,
It's time to make a change and start to give,
If you don't take a stand you'll fall for anything at all.
