You know, anybody is better than you. And you know, you are'nt better than others. In a subculture, everybody is brother. Changes we need to FIGHT TOGETHER! How many times these words were spelt? If you don't changes by yourself, don't wait for a miracle. Prejudge! Prejudice! Insults and war, does everybody needs a flag? Is your choice unrespect? EVERYBODY IS FREE TO MAKE A CHOICE. I'm not talking about lifestyle and music. It's only about respect and attitude. Selfishness at punkrock, do you understand? Little crews, insults, it's not unity! Changes we need to FIGHT TOGETHER! How many times these words were spelt? If you don't changes by yourself, don't wait for a miracle
