

## Good Old War "Get Some"

Visit "[Get Some](#)" on MotoLyrics.com

Even your losses can count for anything  
Paid in your crosses to look like other things  
All of your best thoughts can't seem to find a home  
It's harder to fight them when you can't get one alone

It's something on your mind won't let them be  
You feel it inside, you're not that free

Even salvation can cost your everything  
When all your temptations just leave you settling

It's something on your mind won't let them be  
You feel it inside, you're not that free

[Guitar]

It's something on your mind won't let them be  
You feel it inside, you're not... that free

Aaahhh
