

Good Old War

"Present For The End Of The World"

Visit "[Present For The End Of The World](#)" on MotoLyrics.com

Pain, pain is in everything
I'm not into suffering
Names, names were distinguishing
The differences and the same thing

If we can find our way
I'll be present for the end of the world
I'll be present for the end of the world
So much for all of these diamonds and pearls
I might be present for the end of the world

Tame, tame as the morning light
The curtains were closed at night
I wait, what is your alibi?
This story's not coming out right

If we can find our away
I'll be present for the end of the world
I'll be present for the end of the world
So much for all of these diamonds and pearls
I might be present for the end of the world

Listen, listen to me
I've got this energy
I might just lose it right now.
If you feel me, I know you wanna be
Something that I can love

If we can find our away
I'll be present for the end of the world
I'll be present for the end of the world
So much for all of these diamonds and pearls
I might be present for the end of the world

I'll be present for the end of the world
I'll be present for the end of the world
So much for all of these diamonds and pearls
I might be present for the end of the world
