1, 2, 1, 2 -

Everybody now let's listen what I'm talking about;

What's love, what's love when there is no God;

When you only pray to have more money it's not Ok;

Believe me now I'm telling the truth I'm not telling lies.

Everybody now do you understand what I'm talking about;

Salvation is real it's a fact and we can it feel;

Time is so short so let's start to pray to the Lord;

Believe me now I'm telling the truth I'm not telling lies.

Everybody now do you follow my own minds;

What's your future, what's your future when there is no love;

When you only think to get something, something to drink;

Believe me now I'm telling the truth I'm not telling lies.

Ref.: We going from the East, going from the West,  
Going to the Father's Land.
