What's wrong with having it good for a change now
they're gonna let us have it good if we just help them
they're gonna leave us alone let us make some money
you can have a little taste of that good life too now i
know you want it hell everybody does you'd do it to
your own kind what's the threat we all sell out every day
might as well be on the winning team can you still
recollect those times when the music carried potent
prophecies of change could it be that our
appointment's run it's course are we the liable ones it
seems we've ceased to even care has subjugation
quelled the revolution that once filled the air divide
and conquer as they break us down and watch us fall
believe their lies are true and just be glad it isn't you
leave all your demands unpressed just fall in lines with
all the rest another shill a judas all this time.
