God never let me down because I'm His lovely child
God never let me dow - I know it's in my heart
God never let me dow - I know it's true
God never let me dow - I'm falling into You

God never let me down His shepherd's rod and staff
God never let me dow - protect me all the time
God never let me dow - I know it's true
God never let me dow - I'm falling into You

God never let me down He guides me in the right paths
God never let me dow - He will defend from all traps
God never let me dow - I know it's true
God never let me dow - I'm falling into You
