How are you feeling?  
How does someone like you elude the moral  
quarantine  
does your repression only server the greater lie  
as you abuse and objectify  
all the emotions you defeat you've got the world at  
your feet  
because you think you've silenced all the critics of your  
misogynistic lies  
but when you wake up from your reveries you'd better  
realize  
you're a model of virility a specimen divine  
as you deflower you empower the false ego trapped  
inside  
and by the virtue of your "conquests" you've endeared  
yourself  
to those who you hold in high esteem

you think you've silenced all the critics of your  
misogynistic lies  
but when you wake up from your reveries you'd better  
realize  
you've got to rectify  
that attitude  
you're a hopeless case  
and now you're too late

you call her a whore  
she's just the same as you

though she could never be that shallow  
but you just take what you can get  
and you throw the rest away  
another notch in your belt  
another score another lay

you're taking  
she's giving  
you're losing  
you think you're winning  
you're time is  
running out now

it doesn't feel the same
