give me sensibilities without ambition  
give me accolades i've done nothing to collect  
then you spread your plague of ignorance across the  
planet earth  
robbing us of any self respect

it's a plan these are ways  
to a person we all fall down  
unless we rise as one and resist the right

when we cease to question war as entertainment

and christian battle hymns will keep us pacified  
you can tie a yellow ribbon 'round your cock boy  
you're just along for the ride

we all fall down

the highbrow poxy liberals all fall down  
the harbingers of eden all fall down  
the corporate rock religion all falls down  
the liar in the office he falls down
